

DODGE GRAND CARAVAN

2015

2015: DODGE GRAND CARAVAN

Over thirty years ago, Dodge had the vision to see something that the world didn't know it was missing. But more importantly, had the courage to build it. Drivers didn't yet know how their lives would be changed; but once built, families flocked and weekend warriors arrived. Home improvement fanatics and small business owners lined up, and the legend of the Dodge Grand Caravan was born. Today, it boasts industry-exclusive features, like Super Stow 'n Go® seating and storage, and holds titles including "the most awarded minivan ever,"^{1} and "the best-selling minivan ever," but most importantly, it holds the confidence of families, their hobbies and their livelihoods.*

NOBODY

DOES IT BETTER. No one doubts there's plenty of flexible seating and storage options behind Grand Caravan's available dual power sliding doors — but the comfort, luxury and superior craftsmanship at every turn are a guaranteed double take. Well-appointed interior design details include soft-touch surfaces, a press-fit, flowing dash, tasteful chrome accents and must-have features that are intuitively placed for ease of use.

Available amenities like the heated front- and second-row seats and a class-exclusive full-circumference heated steering wheel² offer comfort in every climate, while the standard steering wheel-mounted cruise and audio controls help keep the driver's focus on the road ahead.

STOW 'N GO®

THE INDUSTRY'S MOST VERSATILE PASSENGER AND CARGO VEHICLE²

Today, it's transporting a hockey crew. Tomorrow, it's hauling building supplies. Behind it all is an intelligent interior designed to be as flexible as your ever-changing lifestyle. Fold, tumble and stow industry-exclusive second-row Super Stow 'n Go® seats into the floor in one motion. Continue the trend with the 60/40 split-folding third-row Stow 'n Go® seats and you've converted Grand Caravan from a seven-passenger powerhouse into an impressive cargo carrier offering 4,072 L of space. When in Park, the third-row seats can flip completely rearward to create class-exclusive tailgate seating.² When all the seats are in their upright positions, travel essentials can be neatly stowed away in the generous in-floor storage bins. The available class-exclusive power-folding third-row Stow 'n Go² offers four seating configurations.

STORAGE SOLUTIONS

THE MOST CONCEALED STORAGE SPACE IN ITS CLASS²

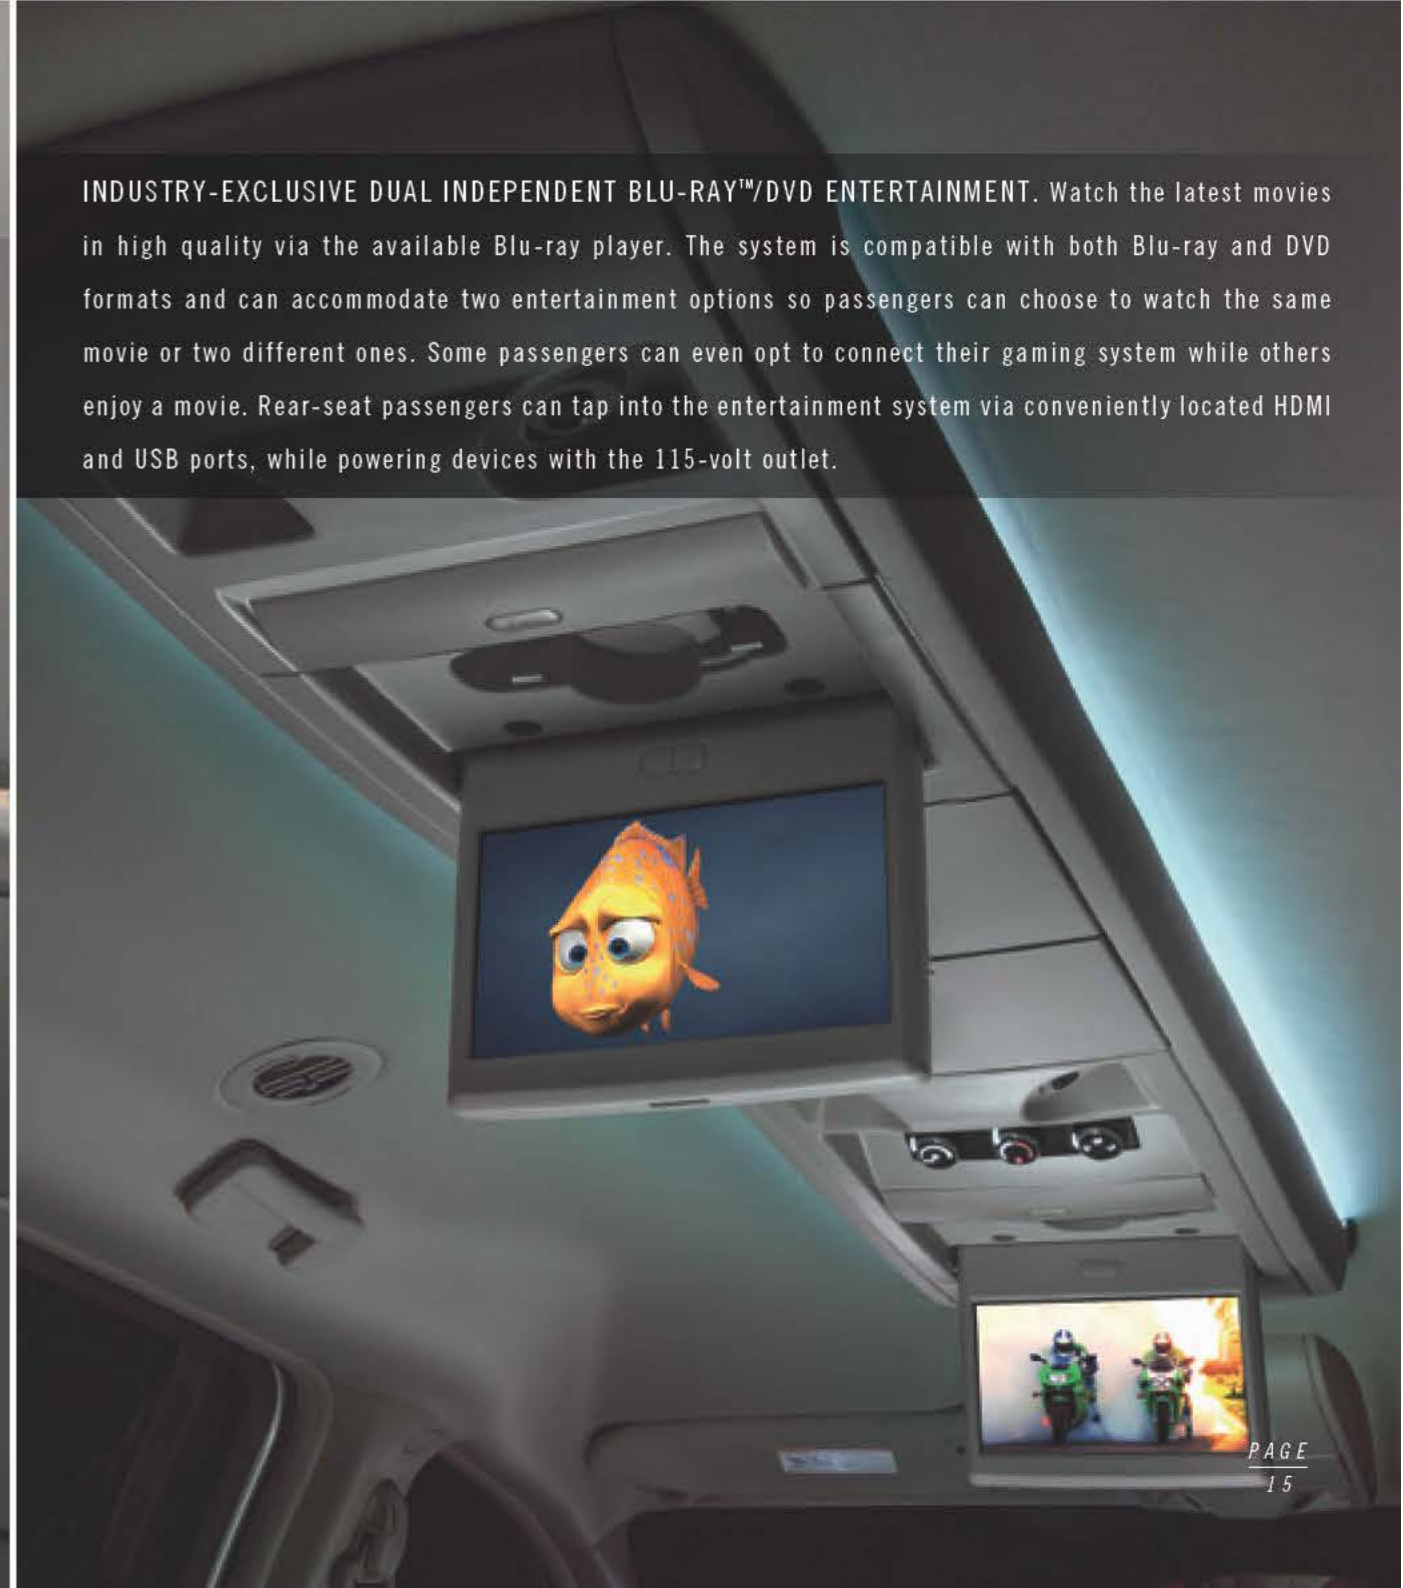

Grand Caravan is more than a passenger-carrying powerhouse. It also makes an impressive cargo hauler. Up front, the available class-exclusive Super Console² features generous storage accessible by both first- and second-row passengers, and a top tray cargo space that can be covered with a sliding door to keep valuable items out of sight. The console's four cup holders include two that can hold 355-mL cans and two that can accommodate up to 1-litre bottles. In back, passengers get their own storage space thanks to 180 L of secure, hidden in-floor bins behind the front row, and additional in-floor storage behind the third-row seats. Look up and you'll find an available overhead rail system featuring up to four overhead bins to keep smaller items out of sight.

IT'S EVEN VERSATILE AT ENTERTAINING

The central hub for your most important media, allowing you to stay connected, informed, entertained and focused on driving. Available hands-free communication³ allows you to use your voice to select AM/FM radio stations and SiriusXM satellite radio⁴ channels, as well as make/receive calls and select destination entries with the available navigation⁵. You'll have multiple ways to access audio, including an available USB port, auxiliary input jack, Bluetooth[®] streaming audio and SiriusXM satellite radio⁴, which includes a one-year subscription and features favourite song, artist and game alerts as well as replay. The available intuitive Garmin[®] navigation⁵ can locate nearby restaurants, shopping, hospitals or points of local interest, and provides easy-to-understand directions, including lane guidance. Top it all off with a system that is clever enough to synchronize with your phone's address book⁶ — up to 1,000 entries — every time you get into your vehicle and you'll see how easy it is to keep in touch with the people, music and devices that matter most.

INDUSTRY-EXCLUSIVE DUAL INDEPENDENT BLU-RAY™/DVD ENTERTAINMENT. Watch the latest movies in high quality via the available Blu-ray player. The system is compatible with both Blu-ray and DVD formats and can accommodate two entertainment options so passengers can choose to watch the same movie or two different ones. Some passengers can even opt to connect their gaming system while others enjoy a movie. Rear-seat passengers can tap into the entertainment system via conveniently located HDMI and USB ports, while powering devices with the 115-volt outlet.

BEST-IN-CLASS TOWING⁷

TOW WITH CONFIDENCE. Only Dodge Grand Caravan delivers class-leading towing capacity⁷ of up to 1,633 kg (3,600 lb). Whether it's hauling an interior full of home improvement materials, a trailer full of college dorm furniture or the family watercraft, you'll get it done. Easily. When you're pulling that much weight, it's nice to know the standard Trailer Sway Control (TSC) will help you maintain control. TSC uses the Electronic Stability Control (ESC)⁸ sensors to recognize when sway unique to towing is occurring. The system then applies brake pressure on alternating wheels and may adjust the throttle to help eliminate sway and maintain vehicle and trailer stability.

BEST-IN-CLASS HORSEPOWER AND TORQUE² Confidence isn't just found in Grand Caravan's safety and security features, it's also found in the power and efficiency of the 3.6L Pentastar™ V6 with Variable Valve Timing (VVT) — a three-time winner of Ward's 10 Best Engines. The state-of-the-art high-pressure die-cast aluminum block, full independent dual-cam phasing, sequential-port fuel injection, and high-flow intake and exhaust ports result in best-in-class 283 horsepower, 260 lb-ft of torque². The segment-exclusive fuel economizer² mode alters transmission shift patterns to help improve real-world fuel efficiency with the simple push of a button.

STANDARD / AVAILABLE

SAFETY/SECURITY/TECHNOLOGY

BLIND-SPOT MONITORING WITH REAR CROSS-PATH DETECTION⁹ // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on the appropriate sideview mirror and by an audible chime. The system includes Rear Cross-Path Detection, which monitors for vehicles/objects in perpendicular relationships to the vehicle while backing out of tight parking spots. Available.

BRAKE ASSIST // This standard system utilizes intelligent software connected to the brake pedal and system. It monitors the rate of pressure on the brake pedal, and when it senses an emergency stop, it instantly applies the greatest possible pressure to the brakes, stopping the vehicle in the shortest time possible.

SEVEN AIR BAGS¹⁰ // In the event of a collision, side-curtain air bags¹⁰ and front seat-mounted side air bags¹⁰ deploy, blanketing outboard positions in all three rows of seating. A driver's knee blocker air bag¹⁰ helps position the driver in relation to the front air bag¹⁰. Standard.

ELECTRONIC STABILITY CONTROL (ESC)⁸ // In adverse conditions, the standard ESC⁸ with electronic Brake Assist works with the advanced All-Speed Traction Control system to help the driver maintain vehicle directional stability and limit oversteering or understeering.

ANTILOCK BRAKE SYSTEM (ABS) // Standard four-wheel disc antilock brakes afford premium stopping power from state-of-the-art electronics that provide faster system response and improved steering.

PARK-SENSE[®] REAR PARK ASSIST⁹ // When in Reverse, sensors detect the presence of objects within 1.98 metres (6.5 feet) in the backup pathway and provide both an audible chime and a visual warning. Available.

ENHANCED ACCIDENT RESPONSE SYSTEM (EARS) // This system makes it easier for emergency personnel to see and reach occupants in the event of an accident by turning on interior lighting, flashing hazard lamps and unlocking doors after air bag¹⁰ deployment. It also shuts off the flow of fuel to the engine. Standard.

TRAILER SWAY CONTROL (TSC) // This standard system uses sensors to recognize when sway unique to trailering is occurring. The system then corrects the sway by applying brake pressure on alternating wheels.

ACTIVE FRONT HEAD RESTRAINTS¹¹ // Active front head restraints¹¹ automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint¹¹ and the occupant's head, helping provide added neck protection for both the driver and front passenger. Standard.

PARKVIEW[®] REAR BACK-UP CAMERA⁹ // This available system displays an accurate visual reference of what is behind your vehicle when in Reverse. It includes on-screen grid lines to show the proximity of the vehicle to obstacles.

Dodge engineers know it's the smallest things that matter most. So drive at ease knowing there are **more than 55 standard and available safety, security and technology features** travelling along with you. It begins with the sophisticated engineering of crumple zones and safety cage construction that work together to absorb impact energy and redirect it away from the passenger compartment in the unfortunate event of an accident. Available sensors on the outside of the vehicle can alert the driver of potential hazards providing additional help to keep you and your family protected at every turn.
