## THE MOST VERSATILE CROSSOVER — IN ITS CLASS<sup>2</sup>

You know you have a flexible, versatile and adaptable crossover when it's capable of offering up to 1,914 litres of cargo space, or can accommodate either five- or seven- passenger seating. With standard 60/40 split-folding and reclining second-row seating, Journey quickly transforms from people-mover to cargo-hauler.

When young passengers are in tow, the available class-exclusive<sup>5</sup> integrated child booster seats<sup>6</sup> and available rear-seat video system keep them both secure and entertained. The video system includes a nine-inch screen, remote control and two pairs of wireless headphones. When your Journey is equipped with seating for seven, passengers will have easy access to their available 50/50 split-folding third-row seats, thanks to rear doors that open 90 degrees, and the Tilt 'n Slide<sup>®</sup> second-row seats.

# GO BIG — OR STAY HOME

## WHO SAYS YOU CAN'T TAKE IT ALL WITH YOU?

Thanks to a best-in-class storage system,<sup>3</sup> you don't have to leave things behind to get away from it all. Two class-exclusive second-row in-floor storage bins<sup>5</sup> with removable, washable liners each hold up to a dozen 355-mL cans, plus ice. Latching lids also make these bins the perfect place for stowing valuable travel items. The seat cushion of the available Flip 'n Stow<sup>®</sup> fold-flat, front-passenger seat flips forward to reveal a bin ideal for concealing personal items. The front-door map pockets, centre console and glove box also provide excellent spots for out-of-direct-view storage.

**NEW FOR 2017,** in addition to Crossroad and GT AWD models, AWD is now available on the SXT trim level,\* when equipped with the award-winning Pentastar 3.6-litre V6 engine, Canada's best-selling engine.<sup>7</sup>

**STANDARD / AVAILABLE**  
 SAFETY & SECURITY FEATURES

Dodge engineers have built every Journey with a high degree of advanced automotive technology. That's why there are more than 50 standard and available safety and security features travelling along with you to make every ride more secure.

// **ELECTRONIC STABILITY CONTROL (ESC)**<sup>13</sup> When road conditions are not at their best, ESC helps the driver maintain vehicle directional stability and limits oversteer or understeer. ESC includes All-Speed Traction Control, Brake Assist, Electronic Roll Mitigation and Trailer Sway Control (TSC).

// **PARKVIEW® REAR BACK-UP CAMERA**<sup>14</sup> Displays an accurate visual reference of what is behind your vehicle when it is in Reverse. Includes grid lines to aid the driver when manoeuvring into parking spaces or narrow areas.

// **PARK-SENSE® REAR PARK ASSIST**<sup>14</sup> When the vehicle is in Reverse, the sensors can detect the presence of objects within 1.9 metres of the vehicle in the back-up pathway and provide an audible and visual warning to notify the driver.

// **TRAILER SWAY CONTROL (TSC)** TSC uses the ESC<sup>13</sup> sensors to recognize sway unique to trailering. It applies brake pressure on alternating wheels and may adjust the throttle to help eliminate sway and maintain stability.

// **TIRE PRESSURE MONITORING SYSTEM** A warning system in the instrument cluster alerts the driver to any tire with low pressure, with displays for each tire's pressure in the Electronic Vehicle Information Centre (EVIC).

// **ANTILOCK BRAKE SYSTEM (ABS)** Four-wheel antilock disc brakes help prevent wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.

// **ACTIVE FRONT HEAD RESTRAINTS**<sup>15</sup> The active front head restraints automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint and the occupant's head, helping provide added neck protection for both the driver and front passenger.

// **KEYLESS ENTER 'N GO™ WITH PROXIMITY ENTRY AND PUSH-BUTTON START** No need to fumble for your keys. Convenient technology detects your approach when you are carrying the key fob and will unlock the door when you pull the handle. Once inside, start the engine by pressing the Start/Stop button while stepping on the brake.
