Dodge Journey is the crossover with the power and sophistication to glide through city streets and the capability and determination to tackle the trails that lead to adventure. Its interior is a master of flexibility and packed with in-vehicle entertainment, which means your gear stays organized and your passengers entertained. From impressive I-4 or V6 engines, front-wheel-drive (FWD) or all-wheel-drive (AWD) capability and spacious seating for up to seven passengers, Dodge Journey easily keeps pace with your ever-changing lifestyle.

*All disclaimers and disclosures can be found on the back cover.
Up to 1,914 L of cargo space

FLEXIBILITY NEVER LOOKED SO GOOD

Properly secure all cargo.
From the commute to family to the hobbies you’re passionate about, you give it your all. When you drive a Journey, you get more than a crossover that shares your dedication to the details, you get a partner that helps make it all possible.

It starts with a versatile five- or seven-passenger interior. The combination of rear doors that open 90 degrees and Tilt ‘n Slide® second-row seats make accessing the available 50/50 split-folding third-row seats easy.

Turn down the standard 60/40 split-folding and reclining second-row seating to quickly transform Journey from a people-mover to a cargo-hauler. There’s up to 1,914 litres of cargo space inside, which makes hauling a breeze.

Opt for the Class-Exclusive integrated child booster seats and available rear-seat video system that includes a nine-inch screen, remote control and two pairs of wireless headphones. Not only will they keep your most precious cargo secure, but happily entertained, too.
Properly secure all cargo.

A standard hidden storage bin and access door to the tool and jack compartment are located behind the rear seat. When hauling gear is a priority, simply fold down the second- and available third-row seats.

LEAVE NO ONE... OR ANYTHING BEHIND

Journey has a place for everything needed for the perfect adventure, thanks to an impressive storage system that includes map pockets on the front doors, centre console and glove box, which also provides excellent locations for out-of-direct-view storage. Two Class-Exclusive second-row in-floor storage bins, each hold up to a dozen 355-mL cans with ice. With latching lids, these bins are also a great place for stowing travel items.

A standard hidden storage bin and access door to the tool and jack compartment are located behind the rear seat.

Properly secure all cargo.
When the weekend’s arrived but the forecast calls for foul weather, there’s no need to change your plans. Journey’s powerful 3.6-litre Pentastar™ V6 engine and the stability of available all-wheel drive (AWD) conquer snowy roads, wet highways and lower-traction terrain. When the AWD system detects wheel slippage, it immediately responds with a transfer of power to the rear wheels for enhanced control and driving dynamics.

Journey offers three trim levels available with AWD, including SXT, Crossroad and GT, all standard with the Award-Winning 3.6-litre Pentastar® V6 engine, Canada’s Best-Selling engine.¹

¹ Canada’s Best-Selling Engine data based on service parts sales data from July 2018 - June 2019.
CANADA’S BEST-SELLING ENGINE

3.6-LITRE PENTASTAR V6

283 horsepower, 260 lb-ft of torque and Variable Valve Timing (VVT) serve up a brilliant combination of high torque and impressive fuel economy, as efficient as 9.5 L/100 km highway. You can also opt for all-wheel drive which activates on-demand for added traction when needed, and delivers enhanced fuel economy when not engaged. This Wards “10 Best Engine” winner is mated to a smooth-shifting six-speed automatic transmission. Standard on SXT and above.

2.4-LITRE I-4 WITH DUAL VVT

Mated to a four-speed automatic transmission, this smart, highly capable 173-horsepower DOHC I-4 engine features a smart balance of power and fuel economy, as efficient as 9.2 L/100 km highway, which lets you travel up to 840 highway kilometres on one tank of gas! Standard on CVP and SE Plus.
KEEP YOURSELF CONNECTED

Dodge Journey offers a range of multimedia centres, and the largest touchscreen in its class - up to 8.4 inches. These intuitive systems feature icons for radio controls, personal devices like an iPod® or smartphones, climate controls and available navigation. Bring your own tunes via remote USB port or available Bluetooth® streaming audio. The USB port can also charge your compatible devices.

Available hands-free calling can be operated through steering wheel-mounted controls or the touchscreen. After touching the voice command button, you can use your voice to manage your phone, radio stations and much more. It’s just that simple.

DISTINGUISHED DETAILS

Small details can make a big impact. Steering wheel-mounted buttons offer easy access to cruise and audio controls. The illuminated cup holders add extra pops of colour while well-tailored touchpoints and premium soft-touch materials add sophistication. When the weather turns chilly, drivers will appreciate the available heated front seats and steering wheel.

INFOTAINMENT AMPLIFIED

With Uconnect® you’ll have entertainment that offers something for everyone. Get the six-speaker Alpine® premium sound system with subwoofer and 368-watt amplifier for your optimal audio enjoyment, while the available 115-volt power outlet allows passengers to plug in portable game systems or audio devices.

With the available SiriusXM® satellite radio, which includes a one-year subscription, you get access to over 120 channels. Enjoy instant replay of your favourite tunes and get alerts when your favourite song, artist or team is playing on any SiriusXM channel.

Set for the sin-speaker Alpine® premium sound system with standard and 368-watt amplifier for your optimal audio experience, while the available 115-volt power outlet allows passengers to plug in portable game systems or audio devices.
SAFETY & SECURITY FEATURES

Dodge engineers have built every Journey with a high degree of advanced automotive technology. That’s why there are more than 50 standard and available safety and security features traveling with you to make every ride more secure.

**JOURNEY WITH PEACE OF MIND**

**ELECTRONIC STABILITY CONTROL (ESC)**
When road conditions are not at their best, ESC helps the driver maintain vehicle directional stability and limits oversteer or understeer. ESC includes All-Speed Traction Control, Brake Assist, Electronic Roll Mitigation and Trailer Sway Control (TSC).

**TRAILER SWAY CONTROL (TSC)**
TSC uses the ESC sensors to recognize sway unique to towing. It applies brake pressure on alternating wheels and may adjust the throttle to help eliminate sway and maintain stability.

**ANTILOCK BRAKE SYSTEM (ABS)**
Four-wheel anti-lock disc brakes help prevent wheel lockup, offering improved steering control under extreme braking or slippery conditions.

**TIRE PRESSURE MONITORING SYSTEM**
A warning system in the instrument cluster alerts the driver to any tire with low pressure, with displays for each tire's pressure in the Electronic Vehicle Information Centre (EVIC).

**ACTIVE FRONT HEAD RESTRAINTS**
The active front head restraints automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint and the occupant’s head, helping provide added neck protection for both the driver and front passenger.

**KEYLESS ENTER ’N GO® WITH PROXIMITY ENTRY AND PUSH-BUTTON START**
No need to fumble for your keys. Convenient technology detects your approach when you are carrying the key fob and will unlock the door when you pull the handle. Decisively, start the engine by pressing the Start/Stop button while stepping on the brake.

**PARK-SENSE® REAR PARK ASSIST**
When the vehicle is in Reverse, the sensors can detect the presence of objects within 1.9 metres of the vehicle in the back-up pathway and provide an audible and visual warning to notify the driver.

**PARKVIEW® REAR BACK-UP CAMERA**
Displays an accurate visual reference of what is behind your vehicle when it is in Reverse. Includes grid lines to aid the driver when maneuvering into parking spaces or narrow areas.

**ANTILOCK BRAKE SYSTEM (ABS)**
Four-wheel anti-lock disc brakes help prevent wheel lockup, offering improved steering control under extreme braking or slippery conditions.

**PARK-SENSE® REAR PARK ASSIST**
When the vehicle is in Reverse, the sensors can detect the presence of objects within 1.9 metres of the vehicle in the back-up pathway and provide an audible and visual warning to notify the driver.

**ELECTRONIC STABILITY CONTROL (ESC)**
When road conditions are not at their best, ESC helps the driver maintain vehicle directional stability and limits oversteer or understeer. ESC includes All-Speed Traction Control, Brake Assist, Electronic Roll Mitigation and Trailer Sway Control (TSC).

ABOUT THIS CATALOGUE: Since the time of printing, some of the information you'll find in this catalogue may have been updated. Ask your retailer for details. Some of the equipment shown or described throughout this catalogue is available at extra cost. Specifications, descriptions, illustration materials, and all competitive comparisons contained herein are as accurate as known at the time this publication was approved for printing. Chrysler, Dodge, Jeep, Ram and Fiat dealers are independent dealerships, not agents, employees, or servants of Chrysler or any of its subsidiaries. All such dealers are agents and representatives of Ram and Chrysler and not of the manufacturer. For the price of the model with the equipment you desire, or verification of specifications contained herein, see your Chrysler, Jeep, Dodge, Ram, and Fiat dealer. Visit dodge.ca for full specification details. For more information on comprehensive vehicle coverage, see your local Chrysler, Jeep, Dodge and Ram retailer or call 800-465-2001.

DISCLAIMERS: 1. Based on the latest available competitive information and WardsAuto Middle Cross Utility segmentation. Excludes other vehicles designed and manufactured by FCA US LLC. 2. Excludes other vehicles designed and manufactured by FCA US LLC. 3. Integrated booster seats are only for children between 120 and 145 centimetres (47 and 57 inches) in height, weighing between 22 and 38 kilograms (48 and 85 pounds). 4. Based on the latest available competitive information and WardsAuto Middle Cross Utility segmentation. 5. Based on IHS Market Automotive Commercial Truck Vehicle total registrations from CYE 2011–2015, CYTD 7-2016 for all Light Duty and Medium-Duty Heavy Duty Trucks. 6. Based on CYTD 2017. 7. Based on CYTD 2017. 8. More information can be found at fca.ca/Mopar. 9. For additional information, see your local Mopar retailer or call 800-465-2001. 10. Requires SiriusXM radio receiver. 11. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. 12. This is a driver convenience system, not a substitute for active driver involvement. The system must remain aware of the surroundings and be prepared to take corrective action to avoid collisions. 13. Always sit properly with the head restraint properly positioned. Never place anything in front of the head restraint. 14. The Advanced Front Air Bags in this vehicle are certified to the federal regulations for Advanced Air Bags Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger air bag. All occupants should always wear their lap and shoulder belts properly. 15. Not compatible with all garage door openers.
